

# Lloyd's Register of Shipping,

Collingwood Buildings, Newcastle-on-Tyne.

11th October, 1926.

reference

Dear Mr. Watt,

With reference to the provisional freeboard assigned to Messrs. Swan Hunter & Wigham Richardson's No. 1234 ship, I note that according to the Secretary's letter of the 8th instant the freeboards have been computed on a corrected tonnage coefficient of .78, whilst the freeboard computation form shows the calculation has been based on a provisional coefficient of .77, and I presume the coefficient stated in the Secretary's letter to be a clerical error.

I would be obliged if you would kindly put me right on this matter before notifying the Builders.

Yours faithfully,

*Alfred Munro*

*Should be .77*

W. Watt Esq.,

London.
