

ARMILLA.

Present dimensions 305' x 50' x 19.25'

Proposed increase in length to 337 is 2'-8" less than earlier proposal

New dimensions:- 337' x 50' x 19.25'

With sections and shear measured from plan (none, than 40% and less than standard respectively) estimates block coeff. of .804 and actual camber standard the summer moulded draught as a steamer =  $16\frac{1}{2} - 8\frac{1}{2}$ "
