enclosure.

18th October, 1927.

Dear Sirs,

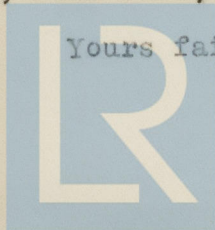

I am in receipt of your letter of the 15th instant enclosing a plan received from Messrs. P. Smit Jr. regarding the tonnage opening proposed for their No. 418, and in reply thereto I have to state that the question of sidehouses and poop overhang in way of a tonnage opening in the upper deck has been discussed with the Board of Trade unofficially, and it has been ascertained that while no objection will be taken to the fitting of sidehouses, there must be no deck over the tonnage opening if the tween deck space is to be exempted from tonnage measurement, and I shall be glad if you will inform the Builders accordingly.

In the present case therefore it will be necessary to recess the poop deck as indicated on the above sketch which is returned herewith.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
ROTTERDAM.
