

Messrs. P. Smit Jr. No.418.

quiry regarding poop deck overhanging a tonnage opening  
the upper deck.

-----

It is submitted the Rotterdam Surveyors be  
requested to inform the Builders that the question of  
sidehouses and poop overhang in way of a tonnage opening  
the upper deck has been discussed with the Board of  
unofficially, and it has been ascertained that while  
objection will be taken to the fitting of sidehouses, there  
to be no deck over the tonnage opening if the tween deck  
is to be exempted from tonnage measurement.

In the case referred to it will therefore be  
necessary to recess the poop deck as indicated on the sketch.

sketch to return.
