

17, BATTERY PLACE,

NEW YORK.

April 2, 1945

Mr Mickey:

We anticipate having the "FOZ DO DOURO" ex BRAHAM RYDBERG" on this side at an early date, at which time is intended to convert her from a sailing vessel to a twin screw job.

Reggie Gibbs has written suggesting that I endeavor obtain from you a copy of the CII report for his assistance preparing a new one. I would appreciate your sending this.

It seems to be quite a while since I wrote to you heard from you. No doubt, like ourselves, you have been fairly busy.

I guess you had an opportunity of seeing W. B. while he was over there, as he wrote that he had been at Kingham. We expect him back here in about a week.

The European situation seems to be drawing to a rapid and satisfactory close. Over here we will be glad when it is over, and no doubt you folks at home who have been experiencing wartime conditions for almost twice as long as we have will be even more glad when the end comes.

With kind regards,

Yours sincerely,

T. Bryden, Esq.,
WOKINGHAM
