Port.....Baltimore, Maryland.....

.....24th February, 1943.....

## PROVISIONAL LOAD LINE CERTIFICATE

This is to Certify that

.....J. G. Buchanan.....

the undersigned Surveyor to this Society did at the request of

the Owners' Representative survey the sailing Barque

"FOZ do DOURO" (ex "ABRAHAM NYDBERG")

2345 tons gross of Oporto, for the purpose of issuing a Provisional Load Line Certificate pending the issuance of an International Load Line Certificate from this Society.

The present freeboards have been verified with the certificate on board and which is now expired.

The survey for renewal of a Load Line Certificate has now been made and this certificate is valid for a period of six months or until the official certificate is received.

In my opinion the vessel may continue to sail under the existing freeboards which are as follows:

Centre of Disc below top of wood upper deck 4' 2 1/2" or  
1293 m.m.

Fresh water above centre of disc 5 1/2" or 140 m.m.

Winter North Atlantic below centre of disc 3" or 76 m.m.

(Signed) J. G. Buchanan

Surveyor to Lloyd's Register of Shipping

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
