

REPORT on the SAILING VESSEL ABRAHAM RYDBERG.

Convention ordinary freeboards have been computed on the basis of the information supplied on Form C.11 & it is submitted the form be sent to Mr Bulow together with the freeboard certificate & copies.

As the Convention freeboards are greater than those computed on the basis of the 1906 regulations the freeboards have been assigned on this latter basis. It would be pointed out to Mr Bulow, however, that the freeboards now assigned differ slightly from the existing freeboards, on account of the sheathing of the freeboard deck being now 3" thick, instead of 4" thick as previously reported.
