# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

16th June, 1923.

Dear Sir,

With reference to your report No.3280 of survey of the new steamer "MONKSTONE", I shall be glad to learn whether the middle line and side keelsons in the machinery space are fitted in accordance with the approved plans; the sheerstrake increased in thickness or doubled at the break; the spacing of the stiffeners to the collision bulkhead is as approved, and not as reported; and the test of the stream steel wire is as required by the Rules.

In addition to the above you should state whether the vessel is without water tight doors.

I am, Dear Sir,

Yours faithfully,

Assistant to the Secretary.

Mr. T. Pearce,  
APPLEDORE.
