W. F. Chapman, Esq.

CURACAO.

Dear Sir:

S.S. "ST. EUSTATIUS"

Your letter of the 24th ultimo having reference to the above named vessel has now come to hand. I am afraid that the information you have furnished is not sufficient to make the report suitable for submission to the Committee.

I think the best thing to be done is to return the report to you so that you may report the exact condition of the machinery at the present moment. State wherein it fails to comply with the Rules and what arrangements are being made to make it comply.

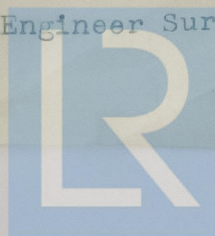

In your report 4b on the oil engines there are a number of questions that have not been answered and some penciled notations which are not in order, and you might kindly answer the same in proper fashion.

An Electric Light Report should be forwarded without fail.

Yours faithfully,

Principal Engineer Surveyor.
