The Principal Surveyor

NEW YORK.

Dear Sir:

T.S. M.V. "ST. EUSTATIUS"

Referring to your letter of the 5th instant, I regret not having been able to reply to your previous communication of the 18th November last as the Owners have not yet completed the alterations to the pumping arrangements, nor have they taken cylinder diagrams in order to obtain the maximum working pressure. I am informed that this will be attended to at the first possible opportunity.

With regard to the crankshafts, the flywheels of both engines are mounted on the extension at the forward ends.

I shall communicate with you as soon as the remaining items of survey have been completed.

Yours very truly,

/s/ W. F. Chapman

Surveyor.
