

une,

With reference to your report No.1660 on the hull and machinery of the steel s.s. "MIRANDELLA", I have to point out that I do not appear to have received a first entry report on form Rpt 5 on the boilers of this vessel, and shall be glad if you will arrange to forward the same before the case receives the consideration of the Committee.

You will see, on reference to your first entry report on the machinery No.1641, that at that time you stated that no report on the main boilers was forwarded, and such a report does not appear to have since come to hand.

At the same time, I shall be glad if you will forward the approved plans of the vessel and particulars of the capacity of the double bottom, deep and peak tanks, and let me know when and at what port the Owners will arrange for the chain cables to be examined.

I am, Dear Sir,

Yours faithfully,

Geo. Payne, Esq.,

LISBON.

Clerk to the
Classification Committee
