

COPY.

25th Augsut, 1932.

Dear Mr. Mackirdy,

As requested in Hull letter of yesterday, we are sending you under separate cover the freeboard certificate for the s.s. "CURONIA", together with two certified copies.

You will observe that on the side of the certificate which is in the Latvian language we have pencilled in the English words which require translation, and the Secretary will be very much obliged to you if you could see the Agents for the Owners or the Master, or someone who understands the Latvian language, to have these words translated into the Latvian language, *and written in*
in LR

When you have had this done, you should return one of the certified copies to this Office for transmission to the Latvian Government. You will notice that there is a space on the English side of the certificate which requires to be signed by the Surveyor who verifies the freeboard markings.

With kindest regards,

Yours sincerely,

J.H.Mackirdy, Esq.,

HULL.
