LLOYDS REGISTER OF SHIPPING

P. Duque da Terceira, 24-29. Esq.

LISBOA

Dear Sirs,

S/S "ARETI"

In reply to your yesterday's communication as regards the Load Lines Certificate and recommended repairs for completion of classification of the above mentioned steamer, we inform you that:-

The above steamer, now on her way to Italy with a cargo of coal, is already fixed from Mediterranean to Continent with a very close cancelling date, and she is expected to return back to Continent by the end of January, or latest, beginning February.

Furthermore, as you will verify with the enclosed tender list of "BOELE'S SCHRRPDWERNEN EN MACHINEFABRIEK", in Bolnes, we have made arrangements with the above yard, in order to effect the recommended repairs.

Therefore, we beg you to kindly grant an extension for the said repairs and the load line certificate, for this only voyage.

Thanking you in anticipation, we remain,

Yours faithfully,

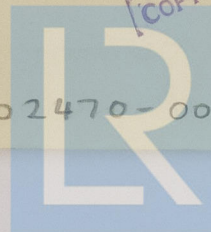

Compañia de Navegacion Olissipo

(Signed) Illegible.
