Dear Sir,

Steamer "BEAULY".

In reply to your letter of the 27th instant regarding Greenock Report No. 25693, I wish to state that on examination the shell and deck were found to be in good condition and it was not considered necessary to carry out drill tests except in isolated local positions on the main deck. However, the readings obtained from the test holes indicated that the plates were in good condition and no renewals were necessary.

Yours faithfully,

Angus h. Pringle.

The Secretary,
GLASGOW.
