ications to be addressed to—
SURVEYORS.

The Secretary.

London.

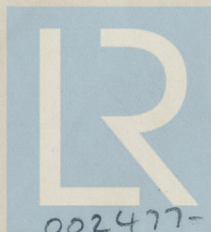

Sir,

In reply to your letter of the 23rd ultimo respecting our First entry report No. 10773 on the new steamer "EIGEN HULP VII" most respectfully to report that the angles referred to in my report have been taken principally from the slipway at Wilton's Yard demolished, and for a smaller part from the steel shed construction disused shed on the same yard. Material from the slipway and the shed has been in use for about years but has been kept in good condition. Material for the brackets has been taken from different shearings over from old and new plates.

I am, Sir,

Your obedient servant,

Рыск
