

C O P Y

ALFRED HOLD & CO., INDIA BUILDINGS, LIVERPOOL 2.
THE BRITISH CORPORATION REGISTER, LIVERPOOL. FOR THE ATTENTION OF MR. KENNEDY

August, 11, 1948.

Dear Sir,

"ASPHALION"

This vessel has a B.C. load line certificate which expires on the 15th July, 1951 and she has also a Passenger and Safety Certificate which expires about April 1949. It is our intention to drop the Passenger and Safety Certificate and we desire to have this vessel brought into the B.C. Class and we shall be glad to know at your earliest if the British Corporation Society are agreeable to carry out the arrangement suggested.

The vessel was built and engined in 1924 by Scott's of Greenock and had, as you are aware, a complete overhaul of the Tyne recently. During this overhaul, the vessel was converted from coal-burning to oil-burning.

If any further particulars are required, we shall be pleased to furnish same.

Yours truly,

(Sgd) JAS. JOHNSTON.

Shipwright Superintendent.
