"CLASS SUSPENDED" CASES.

The question of cases in which class has been suspended has been discussed with Sir Guy Ropner today, and he feels that the notation should remain in the forthcoming edition of the Register Book and that so long as the ships are in fact in existence they should continue to appear in the Book with the appropriate notation.

It has previously been decided by the Committee that the date of class suspension should be recorded in each instance and accordingly when these cases are reviewed, this point should be checked.
