S.
The Secretary,
LONDON.

Dear Sir,

With reference to your classing letter dated the 10th instant relative to our report No. 6348 on the steamer "Berkel", we beg to acquaint you that four hawsers and warps, tested as per Rules, are fitted and that the bottom in the dry tank under the boilers has been cemented as required by the Rules. We beg to apologize for not having made this clear in our report.

The Engineer Surveyor reports that the boilers were found to be in good condition and have suffered no deterioration whilst awaiting installation.

Yours faithfully,
THE SURVEYORS,

per:-
