8th June 1929.

Dear Sir,

S. With reference to Greenock Report No. 19047 on the Steamer "ROMNEY", I have to say it is concluded that the bilge suction pipes in the holds and tunnel wells are provided with strum boxes, and that pipes passing through the bunkers are protected, but I shall be glad if you will kindly ascertain from the Surveyors and let me know whether this is so.

I am, Dear Sir,

Yours faithfully,

Clerk to the
Classification Committee.

The Secretary,

GLASGOW.
