REPORT

Pir

No. 8366

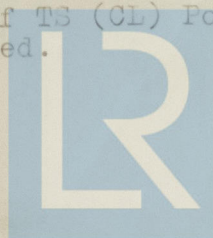

Docking - port screw shaft examined.

DBS due 1.60 now held.

S.R.L. item

Port main engine No. 3 cylinder cover was examined
in place and found to remain efficient and there were no
reports of ANY leakage. The Surveyor, however, submits that
No. 3 cylinder cover of the port main engine be re-examined
by the end of January 1961 (1 years limit)

IT IS SUBMITTED this vessel is eligible to remain
as classed with fresh record of TS (CL) Port 1.60 and DBS 1.60
now. Subject as now recommended.
