

Tanker "ECHODALE"

Mr. Mellenger, U.K. Representative of Mr. K. C. Irving, Saint John, N.B. states his Company is considering purchasing this vessel from the Admiralty.

If the sale goes through his Company will desire to take the vessel to Saint John, New Brunswick, where they own a drydock so that she will be drydocked there and the overdue Special Survey held.

He appreciates that all surveys are overdue, but enquires as to what would be our minimum requirements for the vessel to proceed from the U.K., where she has been laid up since April, 1959, to Saint John, N.B., in ballast.

  
3rd November, 1960.
