ENCLOSURES

Dear Sir,

28th June, 1948.

With reference to Glasgow first entry report No.72997 on the Refrigerating Machinery for the motorship "DARA", I now forward herewith a certificate for the notation "ALLOYD'S RMC 6,48."

In the absence of any documentary evidence that the fan motors have been constructed and tested in accordance with the Rules, it is concluded that this is the case, but should this not be so the Surveyors at your port should satisfy themselves that the fan motors accord with the Rule requirements in regard to construction and performance under working conditions before the certificate is handed over.

I shall also be obliged if you will insert in the certificate the vessel's gross tonnage and furnish this figure to me by letter in due course.

As desired, the Glasgow first entry report is returned herewith but as the London Surveyor's report requires the Builders' signature, the report is being returned to them for this purpose and will be forwarded to you as soon as possible.

Yours faithfully,

Clerk to the
Classification Committee

The Secretary,
GLASGOW.
