# Lloyd's Register of Shipping.

Port of PIRAEUS,

15th April, 1948.

## PROVISIONAL LOAD LINE CERTIFICATE.

This is to Certify that

A. C. BONE

the undersigned Surveyor to this Society did at the request of the Owners survey the steel screw steamer "CORINTHIA", 3879 tons gross of Piraeus, Greece, Official Number 949, International Distinctive Letters SWBA, whilst lying afloat and on the Floating Dock at Piraeus on the 15th December 1947 and subsequently for Special Survey (Dr.) and renewal of Load Line Certificate.

I have surveyed the freeboard arrangements on board the vessel and have found them to be in conformance with the provisions of the International Load Line Convention and the whole to be in efficient condition.

The freeboards assigned are marked on the vessel's sides and have now been verified and found correct, as follows:-

Freeboard from Deck Line.		Load Line.
Tropical.	800 mms.	45 mms. above S.
Summer (S).	845 mms.	Upper Edge of Line through centre of disc.
Winter.	972 mms.	127 mms. below S.

Allowance for fresh water for all freeboards 140 mms.

The upper edge of the deck line from which freeboards are measured is NIL mms. above the top of Steel Upper deck at side.

This Provisional Certificate is issued pending the issue of a fresh Load Line Certificate and is valid until the end of June 1948.

*A. C. Bone.*  
Surveyor to Lloyd's Register.

Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:-  
The Committees of the Society use their best endeavours to ensure that the functions of the Society are properly carried out. It is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Members or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
