# Lloyd's Register of Shipping.

Port GENOA

23rd February, 1951.

This is to Certify that I have

Surveyed <sup>Part</sup> the Boiler and Machinery of the steel single screw

s.s. "CAMPANIA", 6962 tons gross, of Genoa, whilst lying

afloat in Genoa harbour on 12th February, 1951, & subsequently

and that I have transmitted to the Committee of Lloyd's

Register of Shipping, London, a Report stating that all

recommendations made by me in connection therewith have

been carried out to my satisfaction, and that I have

Recommended that the record of + L.M.C. 2.51 and fitted for

.F. 2.51 P.P. above 150°F.

be made in the Register Book in the case of this vessel. when the safety valves of PORT Boiler have been adjusted under steam & all sea connections with their inside & outside fastenings, propeller have been examined, and subject to few bilge lead pipes in engine room being replaced by steel ones at the earliest opportunity.

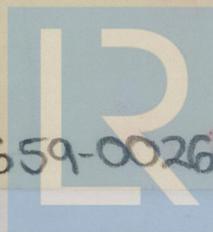

*Halls*  
Engineer Surveyor to Lloyd's Register.

Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly performed. It is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any publication of the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Members or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
