LLOYD'S REGISTER OF SHIPPING

CALLE DE IBANEZ DE BILBAO 22,4°.

BILBAO 23rd March 1922

Dear Sir,

I beg to call your attention to the type of gauges glasses fitted the settling tanks of the steamer "ALDECOA" N°17 ship, this vessel having been completed at the Sociedad Española de Construcción Naval, Bilbao.

Attention was called to the glasses not being in accordance with paragraph II, Section 49 of Rules, but owing to the vessel being urgently required, there was no time to alter same and vessel has now sailed for Galveston.

The gauge glasses are made of flat glasses of substantial thickness but the self closing cocks or valves have been omitted; a sketch of same is enclosed for your remarks.

We are, Dear Sir,

Yours faithfully,

(Signed) C.H. FOWLING
