Dear Sirs,

Motorship "ADNA"

The Society's Hong Kong Surveyors have reported that some Metalock repairs were carried out to the main engine No. 4 cylinder cover early last February.

It was recommended, however, that these Metalock repairs should be specially examined by the end of August, 1961, and the Committee have continued the class subject to this matter being dealt with by that time.

Yours faithfully,

c.c. Oslo

Deputy Clerk to the
Classification Committee.

Messrs. Hansen-Tangen Rederi A/S,
Box 22,
KRISTIANSAND,
Norway.
