Dear Sir,

M/S "ADNA".

With reference to your letter of 2nd December, 1960, regarding this ship, we have now been informed by the Owners' Superintendent that the vessel drydocked at Hong Kong in December last and that both boilers were surveyed and the M.E. driven lubricating oil pump casting and the No. 4 M.E. cylinder cover re-examined.

With regard to the spare anchor and 15 fathoms of cable this equipment did not arrive at Hong Kong in time but will be placed on board at Singapore in the near future. We will be informed when this has been done.

Yours faithfully  
THE SURVEYORS
