

LLOYD'S REGISTER OF SHIPPING

Port HAMBURG

13th October, 1961

This is to Certify that I have surveyed the Machinery of the M.S. "AUGUSTENBURG" 5639 tons gross of Hamburg, whilst the ship lay afloat and in dry dock at Hamburg on the 21st September, 1961 and subsequently for completion of Continuous Machinery Survey and that I will transmit to the Committee of Lloyd's Register of Shipping, London, a Report stating that all recommendations made by me in connection therewith have been carried out to my satisfaction; also that I will Recommend that in the case of this Vessel the following Survey Records be made in the Supplement to the Register Book:

C.S. 10.61

that her Machinery Classification Record be continued in the Book., subject to the grinding mark on the starboard screwshaft cone in way of the rubber ring being specially examined by January, 1962., as previously recommended.

is now examined:

(S. Items only)

connections.
