

Birkbank 10a

S.S. "DAKARIAN", 6425 tons gross.

This vessel has recently been completed on the Clyde, and First Entry Reports have been forwarded from Glasgow.

The vessel was launched on the 10th November, 1920, and in accordance with paragraph 7, page 10, of the General Regulations the Date of Build for ships not exceeding 10,000 tons gross should be not later than six months after the date of launching.

The last date of survey in this case was November, 1921 and the Glasgow Committee recommend for the consideration of the General Committee that the date of build should be recorded in the Register Book as November 1921, the completion of the vessel having been delayed on account of the Joiners' Strike. The vessel was examined in dry dock on the 3rd instant and no deterioration of the plating was observed.

It is submitted that the recommendation of the Glasgow Committee might, in the circumstances, be concurred in.
