71, Fenchurch Street, E.C. 3.

EC

26th March, 1931.

Dear Sirs,

S. I am in receipt of Mr. Bijlo's letter of the 21st instant respecting the safety valves of the new Steel Screw Tug "EBRO" (Rotterdam First Entry Report No. 20163) and note that these are of the high lifting type made by Messrs. Dijkers & Co. of Hengelo.

Before the case receives the consideration of the Committee I have to request you will be good enough to forward a plan of the safety valves in question showing the details and scantlings, and I have at the same time to point out that Dijkers High Lift safety valves have not been approved of a smaller size than that required by the Society's formula.

I am, Dear Sirs,

Yours faithfully,

pro Secretary.

The Surveyors,  
ROTTERDAM.
