ssn.

The Secretary,
LONDON.

RECEIVED
20 OCT 1960

Dear Sir,

m.t. "CARLSHAMN", No.56089 in R.B.

Built 1945. S.S. due 10.59

The above vessel, which has been laid up in Holland since November, 1959, has now been sold to Japan for breaking up purposes.

The Owners propose to carry a cargo from the near East to Japan and would be glad to know if this will be in order provided she is drydocked and a General Examination carried out, the wear down in the stern tube checked and a periodical load line survey held before she proceeds on her voyage. The starboard donkey boiler will not be used.

An early reply would be appreciated.

Yours faithfully,
THE SURVEYORS, Gothenburg

c.c. Stockholm.
