

Motorship "CARLSHAMN"

Mr. Papadimitriou who is negotiating for the purchase of this ship has inspected the reports here this afternoon.

If the purchase is completed he wishes to take the vessel, under her own power, in ballast, to Greece for Special Survey and requests that examination in drydock may be deferred until the ship's arrival in Greece.

He would like to know what are our requirements for this voyage.

Provided the tanker is surveyed in accordance with the requirements of Circ.

No. 1959 and found or placed in a satisfactory

condition for the voyage proposed

as an unclassified ship and in ballast, the Surveyors may recommend accordingly. The question of dry docking

to be left to the Surveyors' discretion - refer Rpt. No. 47730 of 7, 59.
