Hull.

Dear Sirs.

S/S Invertyne & Inverkeithing.

Referring to your letter of 23rd inst,  
the screw shafts on these two vessels are run in grease, but  
there is no gland at the after end of stern tube, the steel  
shafts are bare, the after bush is of cast iron and the forward  
neckring and gland are brass bushed.

Trusting that this information will meet your  
requirements.

Yours faithfully.

CRABTREE & Co Ltd.
