

8th October, 1957.

CARDIFF.

60208, 20, 48, 49 - As recommended.

60238 "DEERPOOL" As recommended. I shall be glad to learn whether the damaged plates now found are to be dealt with at the next drydocking or by the next Special Survey. The contents of the report and the recommendation made conflict in this respect.

60247 "JULIAN PRESA" As recommended, there being no objection to the Eastern Mediterranean being included in the condition of class referred to in your letter of the 5th October. The Owners' Representative should be informed accordingly, and at the same time, requested to state what arrangements are to be made for the Main Boiler Survey to be carried out. It is observed that this became due at the end of June last.
