BILBAO

Dear Sirs,

I am in receipt of your letter of the 22nd inst. regarding the Screwshaft Survey, due in November last, and the Boilers Survey which will become due next March.

Regarding the Screwshaft Survey I ask you to delay it until May/June of this year, when it will be one year from the vessel's drydocking at Jarrow after having been carried out the Special Survey. The vessel will be dry docked next May/June and then the Screwshaft Survey will be carried out.

Regarding the Boiler Survey I shall give instructions to our Agents in Bristol Channel in order that said survey be carried out at some of those ports.

Awaiting your agreement, I remain....
