S.

Dear Sir,

With reference to Liverpool Report No. 82600 on the Steamer "ALLEGHENY", I shall be much obliged if you will ascertain and let me know whether the spacing of the ~~frame~~ rivets and the size of the upper deck stringer angle are as approved and not as stated in the Report; whether the breaking test of the chain cable is as required by the Rules, and whether the length of the forecastle is as shewn on the profile plan.

Perhaps you will at the same time advise me whether the inner surface of the bottom plating clear of the oil tanks is protected by cement.

I am, Dear Sir,

Yours faithfully,

Assistant to the Secretary.

The Secretary.

LIVERPOOL.
