The Secretary,
Lloyd's Register of Shipping,
71, Fenchurch Street,
LONDON E.C.3.

Dear Sir,

Steam Reciprocating Engine Surveys.

In the past the machinery of the various ships of our Fleet, fitted with steam reciprocating engines, has been submitted for survey once every four years, concurrently with the Special Survey.

Experience has shown, however, that as they are now all operating in areas where Surveyors are readily available, it would be advantageous to us to have Machinery Surveys carried out under the Continuous Survey system, and we shall therefore be very much obliged if you would grant the necessary authority for the machinery in the following ships to be surveyed under the Continuous Machinery Survey system henceforth.
