Piazza Cavour, 35, May 25th 1927

"CONTE GRANDE" - S.T.T. 764-
Refrigerating Installation

Dear Sir,

We have been asked by Messrs EUGENIO MASSA of Genoa, to examine two Halls Type 10 A machines proposed to be fitted on this vessel.

These machines bear the Makers numbers 5I85 & 5I89, and are stated to have been made for the two vessels "Duchessa d'Aosta" and "Rosandra" built at Trieste about 1920.

The machines appear to be in practically new condition and it appears possible that one (or both) has never been fitted.

Messrs MASSA believe that the machines were constructed under special survey. If so, please let us have copies of the first entry reports. If not, we would propose to make a detailed examination of the machines, and carry out any tests you may consider necessary as, Messrs MASSA desire to have a certificate from us before shipping the machines to Trieste.

We are, Dear Sir,

Yours faithfully,

THE SURVEYORS TO LLOYD'S REGISTER

The Secretary,
London
