22nd August, 1957.

Dear Sir,

(s)

Steamer "JAMES H. BEAZLEY"

With reference to Liverpool Report No. 147326 I shall be glad if you will point out to the Surveyors that it is considered that the class of the ship should be subject to the six welded tubes in the centre nest of the boiler being dealt with by the end of October, 1957. In this respect it should be explained that outstanding defects which affect classification should always be made a condition of class irrespective of any arrangements which have been made for repair at a later date.

Yours faithfully,

pro Clerk to the  
Classification Committee.

The Secretary,  
LIVERPOOL.
