

Lloyd's Register of Shipping.

342, Argyle Street, Glasgow.

21st May, 1924.

Dear Sir,

As directed I have visited the T.S.S. "FORSDALE" as she lay in the Princes Dock at this port and made as complete an examination as possible of the engines, boilers, auxiliaries and their connections without any of the working parts being opened up. The whole of the plant appears to be of sound design, good workmanship, and well arranged in the vessel, being generally all in accordance with the latest practice. The lay out of the oil fuel system and its emergency controls were, as far as could be seen, in accordance with the requirements of the Rules.

Generally speaking the installation is an excellent one and a credit to the Builders.

I am, Dear Sir,

Yours faithfully,

Harry Clarke

The Secretary,

GLASGOW.

21st May, 1924.

Dear Sir,

As directed I have visited the T.S.S. "FORBES" and she lay in the Wynne Dock at this port and made as complete an examination as possible of the engines, boilers, auxiliaries and their connections without any of the working parts being opened up. The whole of the plant appears to be of sound design, good workmanship, and well arranged in the vessel, being generally all in accordance with the latest practice. The lay out of the oil fuel system and its emergency controls were, as far as could be seen, in accordance with the latest practice.

General Committee
