Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

22nd March, 1938.

Dear Sirs,

I shall be glad if you will communicate with the Aktieb. Atlas Deisel with a view to expediting the payment of the fee of Kr.258 due from them for your survey of the Deisel Engine fitted on board the new motor ship "DALNESS", Stockholm Report No.4582.

All the fees due from the Shipbuilders in this case were paid at the end of February to the Society's Surveyors at Rotterdam; but owing to the non-payment of the fee due from the Aktieb. Atlas Deisel, the posting of the vessel's records of classification in the Register Book is being delayed.

The section of the forthcoming edition of the Register Book containing this vessel's name will be dealt with next month and I shall be glad to learn during the next three weeks that the fee outstanding at your port has been paid.

I am, Dear Sirs,
Yours faithfully,

The Surveyors,
STOCKHOLM.
