9th December, 1929.

Dear Sirs,

I have to thank you for your reply to my telegram to-day's date, respecting the machinery classification certificate of the twin screw steamer "ISLANDER" (your engine No.2609), from which I note that you have no objection the same being handed direct to the Owners, in view of it being urgently required, and have to say that the certificate question has accordingly been handed to the Owners this afternoon.

I am, Dear Sirs,

Yours faithfully,

Clerk to the
Classification Committee.
