Date of last examn. in Drydock 23-3-60

V.B.—Any alterations in existing particulars in the Register Book should be reported and underlined.

Last Report: No.

6935

Port Bcl.

To be filled in at Head Office.

Particulars of Classification (which must be inserted precisely as in Register Book and Supplement)

Surveys must be reported in the terms of the Rules. The nature and extent of Examinations and Repairs (if any) must be stated in detail, the parts examined and their condition being early indicated. For Annual, Special or other Condition Surveys the Summary of examination and Condition on the back of the Report is to be carefully completed and amplified if necessary in the body of the Report. Outstanding items to complete the Survey could be summarised at the end of the Report. The reasons for Repairs must be stated. Repairs on account of Damage (the alleged cause of which must be stated) should be separated from Repairs due to other causes, and, besides being detailed in the body of the Report, should be summarised in the form below. When, at a Special Survey, the Shell and Deck plating is drilled the results must be reported on Report 8(Dr). Whenever Anchors or Chain cables are replaced or retested the necessary particulars are to be given on Report 8(Eq) which is to be attached to this Report.

SHIP'S CLASS		Machinery	
Date of Special and of Drydocking Surveys, etc.			
TOTAL	OIL TANKER, OIL FP	+LMC	
ABOVE	150°F	ES	4.56
S.S.	DR	MBS	3.59
S.S.		TS cl.	3.59N
D.S.		S.P.S	4.56

Give dates and references to any letters relating to this Report.

State any damage cases where the Surveyor has not made a special damage report he should state whether he offered

his services for this purpose and to whom and why they were declined.

Freeboard as marked on ship and now verified ft ins

Was a damage report made by anyone else? If so, by whom?

EXAMINATION AND REPAIRS AS PER RULE FOR

Special Survey. Docking and for general examination for Postponement

Now done. Vessel placed in drydock. Bottom and rudder cleaned, examined and recoated.

Fore and aft peaks, tank under boiler, forward centre and aft cofferdams, No 6 port and starboard side centre tanks, No 2 port and No 4 starboard wing tanks examined internally.

Prepeak spaces, forehold, machinery spaces, structure under boiler, aft peak spaces, steering flat, accommodation spaces, decks, casings, columns, ventilators, air and sounding pipes, masts and rigging, steering gear and winlass, and general equipment examined generally.

Forward cofferdam bulk head, port side, cropped and port renewed, doubling plate fitted to shell in way of centre pump room sea inlet valve starboard side. Other minor repairs effected.

In my opinion the vessel is in an efficient condition, and the Owners request for a postponement of

removed or Repaired in place								

Survey also been held on machinery of the Ship? yes
Is the Report sent now, or when will it be sent? now

Is Classification Certificate required? If so, to be sent to

Has Interim Certificate been issued? yes

GENERAL OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

State clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:— "to remain as Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1.55"; or "to remain as Classed and to have record of drydocking 1.55, and the notation of S.S. . . . 1.55".

This vessel so far as now seen, is in good order and is eligible in my opinion to remain as classed and to have record of Docking Survey 3-60.

The Owners request for a postponement of Special Survey for twelve months merits the favourable consideration of the Committee.

John Douglas
Surveyor to Lloyd's Register of Shipping

TUESDAY 31 MAY 1960
