The Surveyors  
of LLOYD'S REGISTER of SHIPPING  
Barclay's Bank Chambers  
I Minories  
L O N D O N E.C.3

Dear Sirs,

S/S "DEMOS" ex "TURKISTAN" -

We acknowledge receipt of your letter of the 8th January.

The S/S "DEMOS" was in DAKAR from 15th to 18th January and we have carried out the special survey of center boiler.

This boiler, examined externally and internally has been found clean and in good condition, exempt of crack and corrosion. Corrugated furnaces present no distortion. Steam valves, feed cocks and safety valves have been examined and lapped. Bedding and supports of the boiler have been also examined and found in excellent condition.

We have not received, yet, after the visit of Mr J.A MAVOR in last December, our official agreement, from the Head Office, as non-exclusives surveyors in DAKAR.

Also, we could not give to the Chief Engineer any LLOYD'S REGISTER certificate.

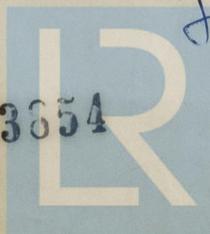

However, we have given the certificate herewith.

A copy of this letter is sent to Mr Mac COLVILLE in LAGOS, the next call port of S/S "DEMOS", were safety valves adjusting could be done, being Port Harcourt.

Yours faithfully

*Jes*
