On the 27th October last the Rotterdam Surveyors stated the vessel was laid up at Singapore on the 6th October, 1958 and that the Owners had requested postponement of the Special Survey and Donkey Boiler Survey as no decision had been taken regarding re-commissioning.

In reply the Rotterdam Surveyors were asked to inform the Owners that is would be in order for the Special Survey, Donkey Boiler Survey and Machinery Subject of class to remain in abeyance, provided they were dealt with before the vessel again proceeded to sea.
