

Steamer "COLUMBIA"

Mr. Harvey, of the Maritime Technical Administration, telephoned this morning requesting to be supplied with details of the Society's requirements with a view to this ship being taken from her "lay-up" berth at Piraeus to Japan where it is anticipated she will be broken up. Vessel to proceed on her own power.

NTS (hull) :-

Submitted the requirements of a satisfactory GE (ci. 1959) held in dry dock for issue of a certificate as an unclassified ship in tow, or as an unclassified ship under her own power.

*MAJ
30.7.59.*

TS (machinery):- Items 2 and 6 of the attached memorandum require to be complied with and the Main Boiler Survey to be carried out.
