Enclosures

3rd June, 1932.

Dear Sir,

S. With reference to Glasgow reports Nos 52440 on  
the new Ferry Steamer "ROYAL IRIS II", I have to acquaint you  
that the Committee have had the case before them today,  
together with a report from the Liverpool Surveyors, from  
which it appears that the equipment has been placed in order,  
the starboard cable lifter has been renewed, and the windlass  
has been tried under working conditions and found satisfactory,  
and in the circumstances I enclose herewith fresh certificates,  
the vessel's class having been continued without conditions.

I am, Dear Sir,  
Yours faithfully,

pro Secretary

The Secretary,  
GLASGOW.
