

EXTRACT OF ROTTERDAM CLASSING LETTER

ROTTERDAM.

-2-

14.7.50.

"HAUVERAVER" - Before submitting your report No. 32396 to the Committee I return herewith your Rpt. 8 and should be glad if you will complete this form under the heading "Present Condition of the..." in the usual way and return it to this Office as soon as possible.

"STANMORE" - With reference to my Classing Letter of the 31st March last, respecting your report No. 31898, it would appear, on further reference to the reports and correspondence on this vessel, that no first entry reports on the electrical propulsion motor and electrical installation have yet been submitted.

I therefore attach standard photostat copies of the relevant first entry reports applicable to this type of machinery, with the assistance of which, and from the particulars already in your possession, I shall be obliged if you will prepare and forward to this Office Rpt. 13 and Rpt. 4d on the "Stanmore" in order that the records in this case may be complete.
