

M.s. "CALPEAN STAR"

(See letter from Wm. Brandt's Sons & Co. Ltd.,
19th January, 1961).

IT IS SUBMITTED that the enquirers be
informed as follows, in reply to the two questions in
their letter:-

1. Where a casualty may affect maintenance of class it
is the responsibility of the shipowners to have
a survey carried out under the supervision of
the Society's Surveyors.
2. If the grounding under review had been reported
and the ship from an examination and/or soundings
afloat had given no indication of damage from this
cause the Committee would not necessarily have
required the General Examination for postponement
to include drydocking before granting postponement
of the Special Survey.

Mr. Turner
