ENCLOSURES

Cert. in dup.

21st January, 1949.

Dear Sir,

I enclose herewith the first entry certificates for the tanker "BRITISH MARINER" Glasgow Report No.73527 and would call your special attention to the fact that in this case the recommendation for temporary repairs in way of the deep tank forward on the vessel's arrival at Abadan has been made a subject of class seeing that oil fuel is not to be loaded in this tank until a further examination is made.

It is noted that the damage occurred during her trials and it is therefore concluded the Builders will appreciate our action in qualifying the certificate. Please assure them that immediately the matter has been satisfactorily resolved at Abadan, we shall be pleased to issue a clean certificate.

Yours faithfully,

The Secretary,  
GLASGOW.
